

14" ULTRATOMIC WALL CLOCK

Model: 404-1235UA-PL | 404-1235UA-SS
DC:032218

POWER UP

- Slide the Time Zone Switch to your time zone.
PT = Pacific, MT = Mountain, CT = Central, ET = Eastern
- Select DST (Daylight Saving Time) setting ON/OFF.
When ON is selected, the clock will automatically adjust for DST (most common).
- Insert two or four fresh "C", batteries according to the polarity markings. Four batteries will extend battery life.

Important: When batteries are installed, the hands will move to 4 o'clock, 8 o'clock, or 12 o'clock position and the clock will start receiving the Atomic Time signal from Colorado. When signal is received, the hands will move to the correct time for the selected time zone.

MANUAL TIME SET

- Set DST switch to the OFF (Q-Set) and Time Zone switch to the Q-MODE. The movement will move to 4, 8 or 12 o'clock position and stop.
- Press and release the SET button to change the time slowly. Hold the SET button to set the time quickly.
- When time is set, slide the DST switch to ON (Q-RUN) position. The second hand will start running from 12:00 and the clock will keep time as manually set.

FEATURES

Custom Time Zone Setting:

Select time zones from +0 UTC to -11 UTC.

- Slide Time Zone Switch to CUSTOM ET.
- Press and release Manual Time Set button to advance time in one hour increments until you reach desired time.

Eco-Mode:

- Eco-mode is a battery saving feature.
- When ON is selected: between the hours of 11pm-5am, the second hand will stop at 12:00. The second hand will resume running at 5am.
- When OFF is selected: the second hand runs normally.

Low Battery Indication:

When the batteries are low the second hand will stop at 6:00 and the hour and minutes hands will run as usual.

ULTRATOMIC TIME RECEPTION

Using the NIST's newly enhanced phase-modulation based broadcast system, this clock is the first of its kind to take advantage of this technology. Due to the dual-antenna scheme used with this type of broadcast, this clock will offer significantly better signal reception no matter the orientation of installation.

- Clean the battery contacts and also those of the device prior to battery installation.
- Ensure the batteries have with correct polarity (+ / -).
- Remove batteries from equipment that will not to be used for an extended period.
- Promptly remove expired batteries.

CANADA STATEMENT

This device complies with CNR Industry Canada license -exempt devices. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Increase separation between equipment & receiver.
- Consult the dealer or an experienced radio/TV technician for help.

This device must not be co-located or operating in conjunction with any other antenna or transmitter.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Caution!

The manufacturer is not responsible for any radio or TV interference caused by unauthorized changes or modifications to this equipment. Such changes or modifications could void the user authority to operate the equipment.
