Made in China - Printed in China

10-Inch Night Vision Wall Clock

Model: 404-4525
DC: 072119

Power Up

1. Insert 1 fresh AA, LR6 1.5 volt alkaline battery into the Movement, according to the polarity markings.
2. Insert 3 fresh AA, LR6 1.5 volt alkaline batteries into Night Vision Compartment, according to polarity.
IMPORTANT: Be sure all batteries are of the same voltage level.
3. Rotate the Time Set Wheel to set the time.
4. Mount on your wall and enjoy!

Note: The quartz movement will keep the clock running accurately. If the clock does not operate, or steadily loses time, replace the battery.

Light Sensor

There is a Light Sensor on the front of the clock.

Light Sensor Switch ON: Your clock will light up in the dark providing the Night Vision.

Light Sensor Switch OFF: Your clock will not light up at night to conserve batteries.

Specifications

- **Battery Requirements:** 1 AA (IEC LR6) required in the Movement (Alkaline recommended)
3 AA (IEC LR6) required for the Light Sensor
- **Battery Life:** 12 months

Care & Maintenance

- Always purchase the correct size and grade of batteries most suitable for intended use.
- Do not mix old and new batteries.
- Do not mix Alkaline, Lithium, standard, or rechargeable batteries.
- Clean the battery contacts and also those of your clock prior to battery installation.
- Ensure the battery is installed with correct polarity (+ and -).
- Remove battery from equipment when it is not used for an extended period of time.
- Promptly remove an expired battery.
- The specs of this wall clock may change without prior notice.
- Improper use or unauthorized opening of housing voids the warranty.
